

## POWERING PROGRESS – PRESENT & FUTURE

Welcome to December's edition of Thrive Supply. As we approach the New Year, we invite you to join us as we reflect on the events of 2023. In this month's newsletter, delve into an exclusive interview with Curtis Moore, the visionary and CEO behind Thrive. Discover his fondest memories, the hurdles he faced, and the remarkable achievements he accomplished throughout the year. Learn about Thrive Electrify's ambitious three-year Vivid Vision, and what we plan to accomplish. Finally, plan for future potential business disruptions and read about how fluorescent lighting was recently voted to be banned globally by 2027 by nearly 150 countries in the United Nations, including Canada. Read on to learn more.

### INTERVIEW WITH FOUNDER CURTIS MOORE

#### 2023 Year in Review

Curtis started in the electrical industry at the age of 18 and has over 20 years of experience as a red-sealed electrician. Thrive Electrify is an amalgamation of both his passions: the environment and electricity. Find out what challenges he overcame and his expectations and goals for Thrive in 2024 and beyond.

### OUR VIVID VISION – 2026

So what exactly is a Vivid Vision? Put simply, a Vivid Vision is a document outlining the leaders' vision for their company's future and the path to realization. At Thrive, our Vivid Vision serves as a powerful catalyst, urging both our team and those connected to us to dream big and exert effort toward our envisioned future. Woven into the fabric of Thrive's culture, our Vivid Vision directs decision-making for our employees, providing everyone involved with clear, aspirational goals. It's a source of inspiration and unity, and we hope you find it as compelling as we do!

### GLOBAL LEADERS AGREE TO PHASING OUT FLUORESCENT LIGHTING

Is your facility still using outdated fluorescent lighting? If so, you need to read this article. In a recent decision at the Minamata Convention on Mercury, 147 countries from the United Nations agreed to implement a global ban on fluorescent lighting by 2027. This ban will impact Canada, making it imperative for businesses still using fluorescent lighting to expedite the transition to LED lighting. Keep reading to find out more.
